

Rocket Pharmaceuticals Announces \$26.4 Million Private Placement

August 30, 2021

CRANBURY, N.J.--(BUSINESS WIRE)--Aug. 30, 2021-- Rocket Pharmaceuticals, Inc. (NASDAQ: RCKT), a clinical-stage company advancing an integrated and sustainable pipeline of genetic therapies for rare childhood disorders, today announces a securities purchase agreement with a fund affiliated with RTW Investments, LP, the Company's largest shareholder, for the purchase of an aggregate of 812,516 shares of common stock, par value \$0.01 per share, at a purchase price of \$32.48 per share, the closing price on August 27, 2021, for aggregate gross proceeds of approximately \$26.4 million to the Company before offering expenses. The private placement is expected to close on or about August 31, 2021, subject to the satisfaction of customary closing conditions. Rocket expects to use the net proceeds from the private placement to continue to advance and expand its pipeline of product candidates, for research and development expenses and for working capital.

The securities to be sold in the private placement have not been registered under the Securities Act of 1933, as amended (the "Securities Act"), or any state or other applicable jurisdiction's securities laws, and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act and applicable state or other jurisdictions' securities laws. The Company has agreed to file a registration statement with the U.S. Securities and Exchange Commission (the "SEC") registering the resale of the common shares issued in the private placement upon the purchasers' request.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy these securities, nor shall there be any offer, solicitation, or sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful. Any offering of the securities under the resale registration statement will only be made by means of a prospectus.

About Rocket Pharmaceuticals, Inc.

Rocket Pharmaceuticals, Inc. (NASDAQ: RCKT) ("Rocket") is advancing an integrated and sustainable pipeline of genetic therapies that aim to correct the root cause of complex and rare childhood disorders. The company's platform-agnostic approach enables it to design the best potential therapy for each indication, creating potentially transformative options for patients afflicted with rare genetic diseases. Rocket's clinical programs using lentiviral vector (LVV)-based gene therapy are for the potential treatment of Fanconi Anemia (FA), a difficult to treat genetic disease that leads to bone marrow failure and potentially cancer, Leukocyte Adhesion Deficiency-I (LAD-I), a severe pediatric genetic disorder that causes recurrent and life-threatening infections which are frequently fatal, Pyruvate Kinase Deficiency (PKD) a rare, monogenic red blood cell disorder resulting in increased red cell destruction and mild to life-threatening anemia and Infantile Malignant Osteopetrosis (IMO), a bone marrow-derived disorder. Rocket's first clinical program using adeno-associated virus (AAV)-based gene therapy is for Danon disease, a devastating, pediatric heart failure condition.
