About Inotek Pharmaceuticals Corporation

Inotek Pharmaceuticals is a clinical-stage biopharmaceutical company focused on the discovery, development and commercialization of therapies for glaucoma and other eye diseases. The Company’s lead product candidate, *trabodenson*, is a first-in-class selective adenosine mimetic developed in Inotek’s laboratories designed to restore the eye’s natural pressure control mechanism. The development of

trabodenason monotherapy delivered in a once-daily eye drop formulation will be followed by a fixed-dose combination of *trabodenason* with *latanoprost*. Additionally, the Company is evaluating the potential for selective adenosine mimetics to address optic neuropathies and other degenerative retinal diseases.
